One Time Use Cards Now Available

The CryptoPay One Time Use card allows owners to provide their customers with a disposable plastic card that will work at any swiper - one time. This works in conjunction with the CryptoPay swiper.

These are cost effective plastic cards that are the size of a credit card. The back of the card has a magstripe that can be swiped at any CryptoPay swiper for a one-time use wash or vacuum.

- One Time Use cards are a great way to say thank you to your customers. Simply hand the customer the card and say "this wash is on me and thanks for supporting my car wash."
- Rewarding a customer creates loyalty.
- Promotions, sponsorships, community service, and fund raisers are additional ways to benefit your customers.

Packs of 100, 200, or 300 One Time Use Cards can be ordered via a link on the MyCryptoPay Control Panel at <https://www.mycryptopay.com/login>
